DH200: SETTING UP MOBILE ACCESS

This guide shows you how to view video streams from your DH200 remotely using your iPhone® or Blackberry® .

Before You Begin

You must complete these two steps before starting:

1. Register your DH200 with the Digimerge DDNS service.
   See page 72, Appendix C in your **DH200 user's manual** for DDNS registration details.

2. Enable DDNS on your DH200.
   See page 28, "DDNS", in your **DH200 user's manual** for details.

Registering your DH200 for Mobile Access

Before you can log in to your DH200 with a mobile device, you must create a mobile account.

To create a mobile account:

1. Go to http://mobile.digi1.net/ on your web browser and click SIGN UP (Figure 1).

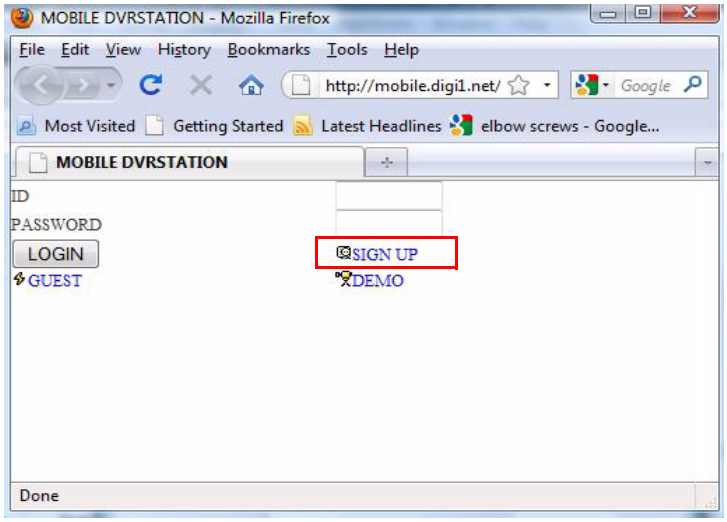

Figure 1: Registration screen. Click SIGN UP to begin registration.

2. The sign up screen opens.
   Enter your desired user ID and password and click Register (Figure 2).

   NOTE: Your password must be at least six characters long.

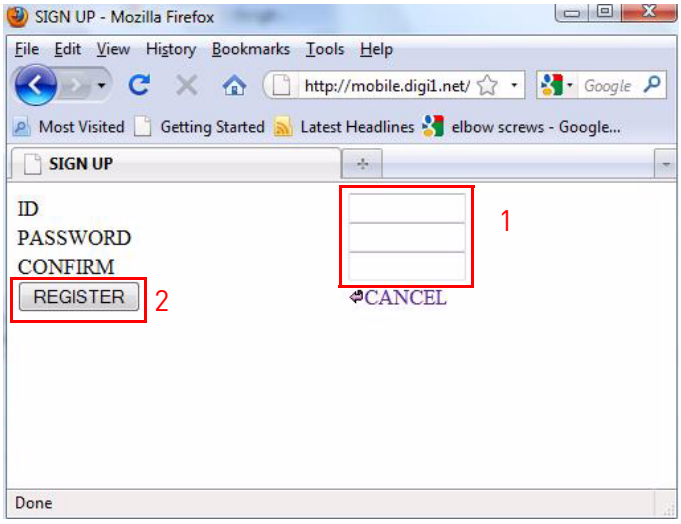

Figure 2: Sign up screen. Enter in desired user ID and password.

3. The DVR registration window opens. Click ADD DVR (Figure 3).

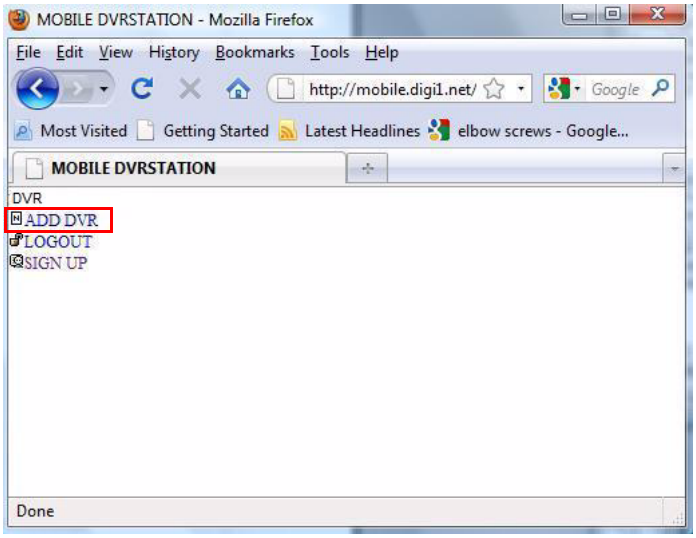

Figure 3: DVR management window. Click ADD DVR to add your DH200.

4. The EDIT DVR INFORMATION window opens (Figure 4).

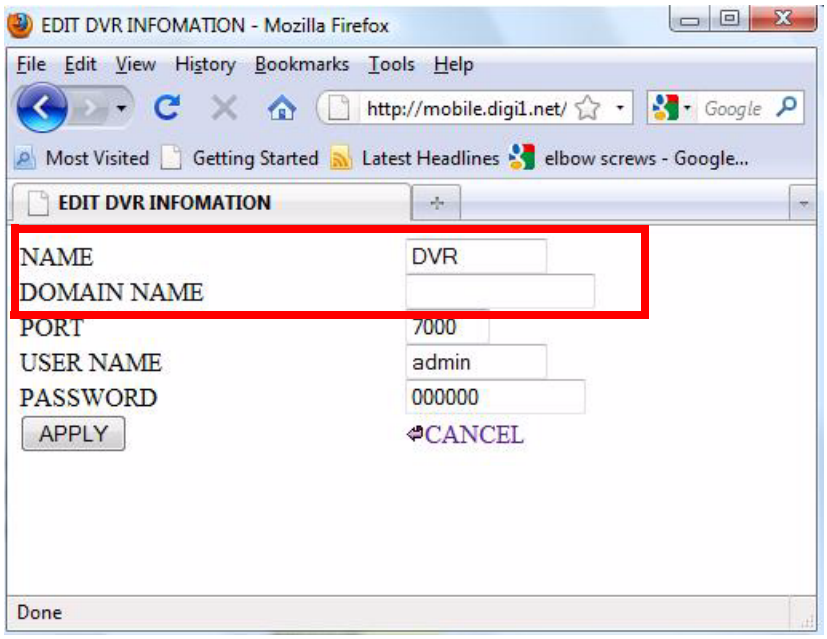

Figure 4: DVR registration window. Enter DVR name and DDNS domain name.

5. Enter any desired DVR name (the default name is "DVR"). Enter your DDNS domain name.

   NOTE: You do not have to enter the entire DDNS address under DOMAIN NAME.
   For example, if your registered DDNS name is **myoffice.digimerge.net**, you would enter: **myoffice** in the DOMAIN NAME field (Figure 5.)

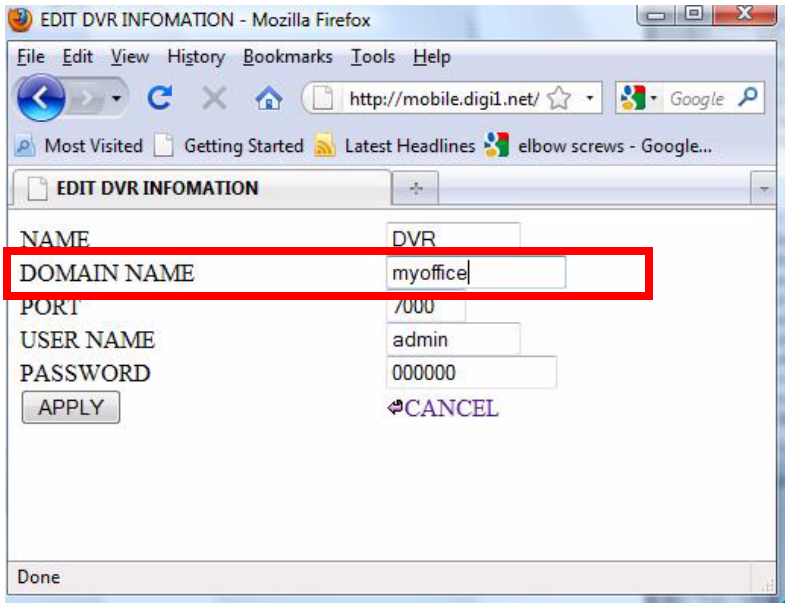

Figure 5: Enter your DVR domain name into the DOMAIN NAME field.

Registering your DH200 for Mobile Access Cont'd

6. Enter your DH200's user name and password. Click the Apply button.

   NOTE: If you change the password of the DH200, you must update your account with the latest password.

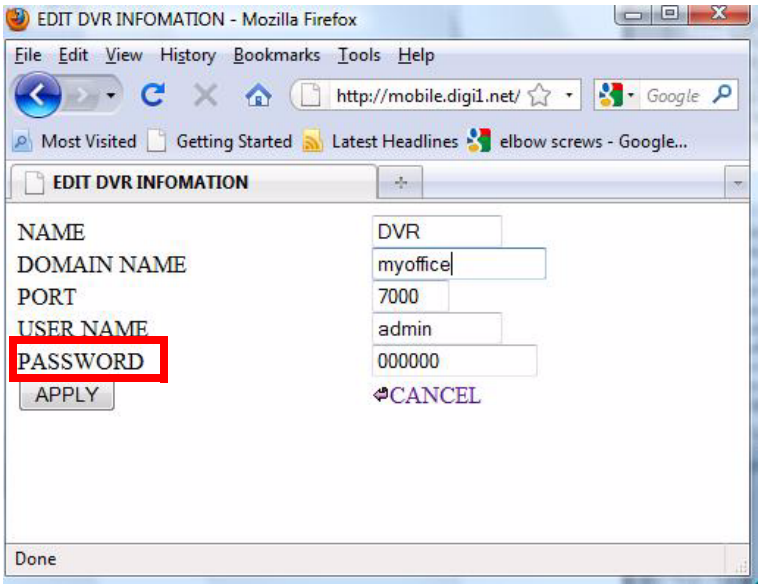

Figure 6: Once you have entered in all the fields, click APPLY to continue.

7. A new window opens that shows: DVR *(the name of your dvr)*, ADD DVR, LOG OUT, SIGN UP. **Click on the name of your DVR**.
8. The DVR camera list opens (Figure 7.) Click the desired camera to start viewing video feed.

Figure 7: Click on desired camera name to begin video feed.

9. Congratulations! Your DH200 is registered and ready for mobile access.

Viewing Video from your Mobile Device

Once you have completed the registration steps, enter http://mobile.digi1.net/ on your iPhone or Blackberry browser. Enter in your user name and password created in **step 2** to log in.

Once you are logged in, select the DVR you wish to view, and click on the desired camera to begin viewing live video.

To view other cameras, click the Back button to view the list of connected cameras.
